

Globex Power Group, Inc.

Engineers, Manufacturers & Integrators
POWER GENERATION

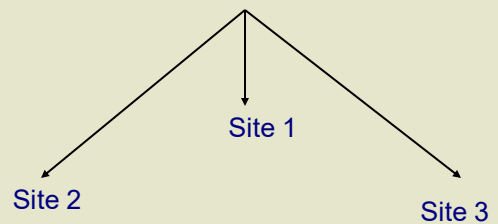

Protect your **COMMERCIAL**
Property and Assets
Individual and Custom solutions
developed and supplied

POWER PRODUCER
Commercial Power

Generac and Kohler Solutions **COMMERCIAL POWER**

Corporation

Deployment of Power Generation Asset from
Corporate facility or centralized location will
assure any site of minimal losses

A Commercial Application may include evaluating a single site or a corporate entity, involving many sites, having a single solution (portable trailer?) that can be deployed rapidly to the effected location salvaging, inventory or sales, as determined by the Corporation the meaningful risk to attempt to resolve. A preplanned program, in readiness for deployment at each location will prove to be beneficial.

Globex will assist in that preplanning.
